### Industries

For variables GFCF, GFCK, GKPY, GFCP and CPNK:

1. **Wholesale and retail trade; repair of motor vehicles and motorcycles** (45 to 47) includes Repair and installation of machinery and equipment (33) and Repair of computers and personal and household goods (95).
2. **Land transport and transport via pipelines** (49) includes part of Water (50) and Air transport (51)- tourist transport.
3. **Professional, scientific and technical activities** (69 to 75) includes Services computer systems design and related services (62).
4. **Activities of head offices; management consultancy activities** (70) includes Leasing of intellectual property and similar products, except copyrighted works (774).
5. **Administrative and support service activities** (77 to 82) includes Waste management and remediation services (38).

### Further notes

1. Figures for 2018 are preliminary.

2. In 2018, the Instituto Nacional de Estadística, Geografía e Informática (INEGI) published revised employment (jobs) data with significant revisions. Major changes are apparent for Agriculture, forestry and fishing (Divisions 01 to 03) where, for example, 2015 employment has been revised downwards from 7.1 million to 2.9 million jobs while Manufacturing employment (10 to 33) has increased from 4.3 million to 5.8 million jobs. Because of these changes previous estimates are not compatible with the latest published statistics.

Further notes

Official (ONS) GFCF statistics show a significant spike in 2005 for ISIC rev. 4 Division 24 (Manufacture of basic metals) offset by a significant drop for Division 84 (Public administration) believed to be a consequence of the reclassification of British Nuclear Fuels Ltd from the public sector to the private sector. For analytical purposes, in STAN, 2005-2006 current price and deflators series for Divisions 24 and 84 were smoothed using “spline interpolation” techniques. Corresponding higher aggregates were adjusted accordingly.
