### Nomenclature

#### *Monetary unit*

Social spending is expressed in millions of Euros (EUR).

#### General notes

The individual country notes of the OECD Benefits and Wages ( [www.oecd.org/social/benefits-and-wages.htm](http://www.oecd.org/social/benefits-and-wages.htm) ) provide a comprehensive description of characteristics of social programmes (e.g. conditions for receipt, calculation of payment rates, tax treatment of social support, benefit duration, etc.) for the working-age population, including: unemployment insurance and assistance, social assistance, employment-conditional benefits, housing benefits, family benefits, childcare support, and support for sole parent households.

#### Break in series

Data for voluntary private health insurance are available since 2003 only.

#### Secretariat estimates:

The split between public and private social expenditures is not available since 2010. These were estimated by using the 2009 proportion of public and private social expenditures in total social expenditures.
