Database on Social Expenditure ([Social Expenditure Database \(SOCX\) | OECD](#))
OECD - Social Policy Division - Directorate of Employment, Labour and Social Affairs

ESTONIA

Monetary unit

Social spending is expressed in millions of Euros

General notes

The individual country notes of the OECD tax-benefit model ([How do countries calculate tax liabilities and social benefit entitlements? | OECD](#)) provide a comprehensive description of characteristics of social programmes (e.g. conditions for receipt, calculation of payment rates, tax treatment of social support, benefit duration, etc.) for the working-age population, including: unemployment insurance and assistance, social assistance, employment-conditional benefits, housing benefits, family benefits, childcare support, and support for sole parent households.

Break in series:

Data for Public health before 1999 refer the total health spending function (HC1-HC9, HCR1) as the split in current health spending (HC1-HC9) into the financing schemes is only from 1999 on.

Data for voluntary health private insurance are available since 2004 only.

Secretariat estimates:

Childcare pre-primary expenditures have been estimated for 2000-2003 based on the trend of 2004-2005. Adjustment for 6 years old in childcare pre-primary expenditure is estimated based on enrolment rates from the OECD Education Database.

Sources

2000 onwards
